Yes, it's a MINI soundtrack that is stated in the TITLE and the DESCRIPTION. It only has four tracks but these tracks are amazing enough that I'm not left wanting more. Don't downrate this beautiful music simply due to your own illiteracy.

I could listen to these tracks on repeat for hours (currently 2 hours in whilst writing this) and still enjoy it. It just makes me that much more excited for the full soundtrack once it's released.

As for the price, it's the same as any music download medium, around \$.99 per song. No gouging or extortion before anyone else starts wrongfully rating this low due to other reasons than quality.. I bought this thinking that this is the soundtrack.

This is not the soundtrack. It's the MINI Soundtrack.

I don't get why this is here.

This is dumb. Just let me buy the soundtrack via Steam.

Under this DLC, I saw the "Buy D4 Sound Track" DLC.

That is also not the soundtrack. It just links back to the MINI Soundtrack.

You have to buy the D4 Soundtrack through other means.

I don't even know if it is possible to buy the ACTUAL D4 Soundtrack through Steam.
